

Draft

The PCC/TEPPC Project Coordination and Path Rating Task Force is pleased to post for comments the proposed modifications to the Procedure for Project Coordination in the PCC Overview of Policies and Procedures for Project Coordination Review, Project Rating Review, and Progress Reports (PCC Document). These proposed modifications were built upon the prior efforts, which cumulated in the PCC Document approved by the WECC Board in April 2010. These proposed modifications will also provide the framework for updating the Procedure for Project Rating Review, which is proceeding concurrently.

The Task Force would appreciate guidance and specific comments.

Draft Questions to accompany the posting:

1. The Task Force consolidated the 11 Guidelines into 4 Objectives. Do you agree with the changes? Please provide specific comments if you disagree.

Yes

No

Comments:

2. The proposed modification will require that all transmission projects, which are significant, must go through the Procedure for Project Coordination Review unless granted a waiver with the process outlined in Section 4 on Page III-40 in the PCC Document. (A significant transmission project is defined as 200kV and above.) a) Do you agree with this added requirement? b) Do you agree with the proposed process of granting a waiver? Please provide specific comments if you disagree.

Yes

No

Comments:

3. The proposed modification includes a process to remove proposed projects with no demonstrated activity for 18 months from the Project Coordination list. Do you agree with this added requirement? Please provide specific comments if you disagree.

Yes

No

Comments:

4. Please provide other specific comments and suggestions.
