

Misoperations Reporting: Best Practices Webinar

February 23, 2017

10:00 a.m. – 11:00 p.m. MT

Webinar

The purpose of the Misoperations Best Practices webinar is to inform and educate reporting entities on common issues and pitfalls that can occur with MIDAS reporting. Training will cover topics from proper formatting to avoid processing errors that cause a need for re-submittals, as well as content requirements to avoid additional data requests after submittal. This training is designed for anyone required to report protection system operations or misoperations under the NERC 1600 Data Request.

REGISTRATION

Please register [here](#) for the webinar.
